# Technology Leadership Series

presented by GTSI & FCW

Enterprise consolidation. Security. Information sharing. They're the IT topics that top most government agencies' agendas. Join industry analysts and today's IT innovators to get insight on how to address these critical issues. Presented by GTSI and FCW, the Technology Leadership Series will give you the best strategies, proven tools, and deep technical knowledge. You'll get ideas, forecasts, and the latest information to develop a sustainable technology roadmap.
