

Experience the
Customer Briefing Center

TO OUR
CUSTOMERS,

AT GTSI, one of our guiding principles is [collaboration](#) – engaging in an on-going dialogue among us, our partners, and our customers. By sharing ideas and exploring possibilities we arrive at the best resolutions to your specific technology challenges. Our Customer Briefing Center creates an ideal setting to encourage a meaningful discussion. It provides a total environment that supports the productive exchange of ideas. And it offers an effective means of demonstrating the solutions and services that can power your mission forward. We welcome the opportunity to work together, to determine how GTSI can best position you for continued success. At GTSI, we have one mission, yours.

Sincerely,

A handwritten signature in black ink, appearing to read 'Scott Friedlander', with a stylized flourish extending to the right.

Scott Friedlander
President and Chief Operating Officer
GTSI

Designed with our customers in mind

Information technology changes swiftly, and keeping pace with emerging trends becomes critical to the successful pursuit of your mission. At GTSI, we're dedicated to ensuring our government customers are well-armed with the latest technological advancements and the leading-edge solutions that help them meet their business objectives today and tomorrow. That's why we've created the GTSI Customer Briefing Center.

Designed with our customers in mind and located at our Herndon, Virginia, headquarters, this state-of-the-art facility provides an optimum setting for exploring current developments, displaying our growing list of capabilities, and demonstrating how our enterprise solutions and services can effectively address your IT challenges.

Arranged to Satisfy

Within the Center, comfort and convenience mesh with cutting-edge meeting resources to create an

atmosphere conducive to productivity. The facility includes a main Briefing Room, a separate conference room, a lounge area, and a concierge station to ensure every meeting runs smoothly. The Briefing Room comes equipped with the latest in audio, video, conferencing, and lighting resources.

Each visit to the Center is carefully planned and customized by our professional team to satisfy your requirements. The flexible arrangements accommodate an array of meeting options, including live technology demonstrations, executive communication exchanges, and program and project analyses just to list a few.

Designed for Understanding

The Center provides a prime opportunity for customers to understand how GTSI's services and solutions can enhance their strategic business objectives. Plus, customers

have the ability to share best practices and discuss technology trends with our top engineers and sales team. Demonstrations at the Center focus on dynamic core offerings, including unified communications, desktop virtualization, physical security, asset management and RFID, and server virtualization.

The Solutions & Services Lab

In addition to the Center, the GTSI Solutions & Services Lab provides proof-of-concept capabilities and allows our customers to view live demonstrations of solutions. Our engineers can design a customized, detailed demonstration set up to replicate your current environment, to show how the solution will work for your individual needs.

About GTSI

GTSI Corp. is the first information technology solutions provider offering a Technology Lifecycle Management (TLM) approach to IT infrastructure solutions delivered through industry-leading professional and financial services. GTSI employs a proactive, strategic methodology that streamlines technology lifecycle management, from initial assessment to acquisition, implementation, refresh, and disposal. TLM allows government agencies to implement solutions of national and local significance quickly and cost-effectively. GTSI's certified engineers and project managers leverage strategic partnerships with technology innovators. These experts use proven, repeatable processes to design, deploy, manage, and support simple to complex solutions, to meet governments' current and future requirements and business objectives. GTSI is headquartered in Northern Virginia, outside of Washington, D.C.
